

CODEX

GENERAL RULES

Any of the following rules may be changed without prior notice as may seem fit by the event/game master or the organizing committee:

- This game is a team based event, each team consisting of maximum 2 members.
- Each team should nominate a leader to whom all the details and information regarding the event will be conveyed. It is the responsibility of the team leader to convey them to his/her team mate.
- ROUNDS:
Round 1: Elimination Round (only for AGI students)
Round 2: Debugging Round
Round 3: Programming Round
- LANGUAGES ALLOWED: C, C++, Java
- The Tournament Organizers reserves all the rights to cancel or modify the event rules, if fraud of any kind is detected, technical failures or any other factor beyond reasonable control that impairs the integrity of the event.
- In case during any round, if PC stops/lags for any team then there is a provision for extra time if justified or as may seem fit by the event master.
- Teams/Participants unavailable at the time of their event will be disqualified after a wait period (since the event starts) of 15 Min.
- Terminal will be provided to each team along with the pen and paper and so personal laptops aren't allowed.

ROUND DESCRIPTION

Elimination Round [Round 1]

- This round is just for elimination and not to be considered the actual competition.
- This round is only for the students of AGI(Amrपाली Group of Institutions)
- In this round each team will be provided with 50 objective questions (Based on C-language).
- Time: 45Min.

Debugging Round [Round 2]

- This is the first round of the event.
- In this round each team will be given a set of erroneous codes written in c/c++ language.
- Participants have to point out as much error as they think is present in the given codes.
- TIME: 30 Min.

Programming Round [Round 3]

- In this round each team will be given an option to choose any one of the language from C, C++, Java.
- According to the language choose the team will be given the problem statement for which they have to develop the code(error free code)
- TIME: 45 min.
